COLD RIVER[®] *Distinctive maine potato* VODKA

Discover a new appreciation of spirits with the gluten-free vodka and gin that deliver authentic handcrafted quality. Cold River spirits are made with Maine potatoes grown on their own farm and triple-distilled for the perfect level of refinement.

Cold River Vodka is the only ground-to-glass potato vodka distillery in the United States, located in Freeport, Maine. The vodka's water source is Maine's Cold River, which flows out of Evans' Notch and meanders its way through the former potato fields of forested Fryeburg, and filters through miles of underground granite into the Cold River Aquifer, home to some of our planet's purest and most refreshing water.

An acre of potatoes can produce more vodka than an acre of any other crop that can be planted. So why aren't more distilleries producing potato vodka? The simple answer is making vodka from potatoes requires more steps and thus, more time. But, on the positive side the unfermented sugars left over after potato vodka production – versus wheat-based vodka production – lead to vodka with a naturally smoother finish.

Each Cold River Vodka bottle is numbered by hand to reflect its batch and ensure its excellence. This is a super-premium, martini-quality, gluten-free vodka that is distinctive among the world's most sophisticated spirits. Experience pure enjoyment with this 100% Maine potato vodka.

If it is gin you are after, then discover the perfect balance of botanical flavour with Cold River's handcrafted gin. Like their world-famous vodkas, our gluten-free gin is made with our own farm-grown potatoes and the pure water of Maine's Cold River. Using a recipe that dates back to the early days of British gin, they use a secret blend of seven traditional botanicals that are steeped for the perfect amount of time to infuse the essential flavours. The end result is a true handcrafted American spirit that delights the true gin lover with a perfectly dry, exquisitely balanced and invigorating taste experience.

**COLD RIVER
VODKA**

Exceptionally smooth. Sweet, with berry notes and hints of honey, lemon, lavender, and gingerbread. A rare combination of exquisite smoothness and interesting nuance. Excellent stuff.

**COLD RIVER
BLUEBERRY VODKA**

Discover the true taste of wild blueberries with this 100% Maine potato vodka that trades sugar and additives for the real thing. An honest 80 proof blueberry flavoured vodka that delivers real taste.

Cold River Blueberry Flavoured Vodka is preferred by connoisseurs and bartenders because it mixes well and lacks the overpowering sweetness that can ruin a fine cocktail. The real beauty of its subtle flavour comes out even more when sipped neat or on the rocks.

COLD RIVER GIN

Cold River Gin is born of a traditional botanical recipe dating back to the earliest days of British gin. The nose is juniper forward, resinous, bracing, and brilliantly fresh. Supporting the juniper are citrus and coriander, followed by an appropriately floral earthiness. The taste perfectly balances astringent, sap-like juniper and bitter lemon with sweet orange and aromatic coriander. Juniper flavours deepen in the mid-palate and are complimented by the rich bitterness of angelica root and cardamom. The citrus elements finish first, leaving clean juniper flavour, the spice cardamom and the bitterness of the angelica root. The finish is long, well balanced, warm and dry. Cold River Gin is a spirit perfectly suited for a headlining role in classic cocktails such as the Martini, the Negroni, the Gin Fizz, the White Lady, the Singapore Sling, and, of course, the ubiquitous yet exquisite Gin & Tonic. Try it for your yourself; take a sip and step back into the history of the spirit world.

**TASTING
NOTE**

NOSE

Juniper-rich, with notes of pine resin, pepper and nutmeg, a hint of clove too, and sweet tangy citrus.

PALATE

Spicy and sweet, with lovely zinging top notes of juniper, lemon and star anise. It becomes quite fruity with a lovely suggestion of red berries, perked up with black pepper and cinnamon.

FINISH

Long and creamy, notes of pepper and chilli warmth on the tail.

THE PERFECT BALANCE OF BOTANICAL FLAVOUR
